

popcorn stand, head and face cut by broken glass.

JOHN HAYDEN, St. Paul, head cut and side bruised by the wind-stood the large freighthouse of the Omaha Railroad, and the small section at the end, about fifty feet, standing at the extreme end of the street.

Telephone service between the Twin Cities was cut off for three hours, while telegraph communication was cut off entirely, except through the medium of the Associated Press.

HIT BUSINESS SECTION.
(BY THE ASSOCIATED PRESS-P.M.)
MINNEAPOLIS (Minn.) Aug. 21.—The center of the storm hit the business section at Nicollet avenue and Sixth avenue. Here the front of the Glass Block was blown out and a huge skylight was blown off. All of the stores in this district had windows blown in, and all suffered more or less damage to stock. The mammoth skylight of the Guaranty Loan building fell twelve stories through the interior court, and great damage was done by water to offices. The street-car service was tied up until noon today, trolley wires being down in all parts of the city as the result of falling trees. The loss is estimated at fully \$1,000,000.

The storm did great damage at St. Louis Park, a suburb about eight miles from Minneapolis. The loss here is estimated at \$500,000.

A special to the Tribune by courier from Weconia says that place was visited by a tornado last evening, which destroyed the country for miles around, and from the mangled remains obtainable, four persons were killed and several injured.

SEVERE STORM AT CHICAGO.
(BY THE ASSOCIATED PRESS-P.M.)
CHICAGO, Aug. 21.—A severe wind storm passed over the city tonight doing much damage in the suburbs. Several small fires were started by the lightning. Northwest of the city, hundreds of acres of corn were beaten down by the wind and rain, and much of it was lost.

Small patches of slate from roofs of many other quarters were also torn away, but in the aggregate not much damage was done. The principal inconvenience caused by the storm was the derangement of the telephone and electric lighting systems. The great force of the wind carried down poles and wires, disturbing connections and putting out the lights throughout the buildings.

The wind had apparently spent a portion of its fury by the time it reached the fort.

Beginning at a point below Fort Snelling, there is the first known evidence that the storm struck with damaging effect. It came from the southwest, and, howling in its fury, uprooted trees and demolished buildings in its pathway toward St. Paul. It tore off two spans of the high bridge completely. There the bridge connected with the high bluff at West St. Paul and it is 150 feet above the river. This mass of steel was carried to the flats below, where flying steel girders and heavy planks fell on several small farmhouses and crushed them. None of the occupants of these houses were hurt, they having been in the storm coming and took refuge in the caves in the hillsides.

The storm tore down the flats, uprooting trees on Harriet Island, and with a deafening roar and the hiss and splash of falling steel, it struck this city. Here was located at the bridge entrance on opposite sides of Wabasha street the Tivoli Concert Hall and Empire Theater, both of which were fairly crowded with people watching the performance. Both buildings stood on the edge of the bluff overlooking the river, with sides of the buildings open, and were wrecked. The full force of the storm struck them.

The audience became panic-stricken. Men and boys rushed over each other for the exits. The lights went out and the shouting and confusion were so great that the scene of pandemonium which was intensified by the crash of glass and the tearing of timbers as the frame structures gave way before the tornado, seemed to be a scene of chaos. The roof of the roof was blown through the air and landed east in Third street, a block distant.

Underneath the Tivoli were found the mangled bodies of Lorin F. Hokin, one of the employees in the concert hall, and George Kewenow, one of the audience.

On the storm rushed to the northeast, over the wholesale district, and every building facing the south from Wabasha street for blocks east in Third street had scarcely a pane of glass in any window, while many on the opposite side were also broken. Roofs on several buildings were rolled into bundles and dropped into the street, flying slate mixed with the rain, battering everything which stood before it, and horses and carriages were swept along the street which, in an incredibly short space of time, were filled with water.

Wires were torn down, and part of the city was left in darkness. The high buildings reaching skyward above the smaller ones on East Third street were shaken to their foundations.

LEISHMAN CONFOUNDS LYING MOSLEMS.

(BY THE ASSOCIATED PRESS-P.M.)

CONSTANTINOPLE, Aug. 21.—(By Atlantic Cable.) A note from American Minister Leishman, dated August 16, was handed to the Turkish authorities within twelve hours after the receipt by the Minister of the Turkish note Monday. In this note, Mr. Leishman holds the government to its solemn undertaking, respecting equal treatment with other nations for the United States concerning the question of educational institutions.

This allusion to the Imperial policy apparently embarrassed the Porte, which had previously announced that it would ignore the formal verbal assurances which Minister Leishman declared he had received.

It is considered improbable that the Porte will reply to the Minister's note, and therefore the question is looked upon as shelved, pending the execution of the process of recognition, when it is considered not improbable that fresh difficulties will arise.

Notwithstanding the assertion by Izzet Pasha, the secretary of the palace, that \$250,000 has been deposited as compensation due to an American citizen at Smyrna for land illegally taken, no such deposit has yet been made.

AND NOW THE SULTAN.
(BY THE ASSOCIATED PRESS-P.M.)
LONDON, Aug. 22.—The Constantinople correspondent of the Standard considers that the diplomatic triumph

The fine large plate-glass windows were blown in, and several building skylights were blown out.

In the path of the wind stood the large freighthouse of the Omaha Railroad, and the small section at the end, about fifty feet, standing at the extreme end of the street.

Telephone service between the Twin Cities was cut off for three hours, while telegraph communication was cut off entirely, except through the medium of the Associated Press.

HOCH SOLL SIE LEBEN, SURE.

German-Americans Rallying Most Enthusiastically to the President.

(BY DIRECT WIRE TO THE TIMES.)
NEW YORK, Aug. 21.—(Exclusive Dispatch.) One of the most striking features of the campaign thus far throughout the East has been the remarkable rally of the German-American citizens to Roosevelt. During the past week no less than from five to ten meetings have been held daily by them in different parts of Greater New York and Brooklyn.

Last night ten different meetings were held. The President's name was cheered at every mention. All the speeches were in German.

Like reports come from all sections of the East to the Republican National Committee. German clubs have been formed in Providence, a number in Boston, Baltimore and Philadelphia. The reason seems to be simply admiration for President Roosevelt's manliness. Even the advocacy of Parker by the States Zeitung has had little, if any, effect in curbing the spontaneous outburst for the Republican ticket.

PARTY OF THE PEOPLE.

Democrats Who Cannot Stand for Wall Street and Sugar Trust Scandals Turn to the Republican Ticket as the Safest Course.

(BY DIRECT WIRE TO THE TIMES.)
NEW YORK, Aug. 21.—(Exclusive Dispatch.) Albert S. Vogan and R. M. Springer, prominent Democrats, who supported the regular Democracy in 1896 and 1900, have come out against Parker. Vogan said: "There is a strong sentiment in favor of the nomination of a regular Democratic ticket. Parker is holding back his letter of acceptance with a view of preventing this, but it will do no good. The people know that Parker belongs to Wall street, who put him on the Supreme bench of the State; he belongs to Wall street, body and soul. Wall street is thoroughly and secretly organized in his support, as it was for Cleveland."

"At least two million enlightened and absolutely independent Democrats who followed W. J. Bryan through the last Presidential campaign, in order to silently observing the maneuvering of the two great political parties, at the opening of the campaign," said Springer. "At least one million of them will vote for Roosevelt. In order to insure the decisive defeat of the combination of Wall street trust agents and the remnant of the southern slave oligarchy, I take it that one-half of the other million will support Watson, the candidate of the People's party, and the remaining half a million will reluctantly support Parker, in the hope that Bryan, Hearst and men of similar conviction may be able, in future, to wrest the machinery of the Democratic party from the hands of the piratical crew now in charge."

"The relinquishment means the election of Roosevelt by an unprecedented majority, and it also means, in my opinion, that the Republican party will be the more become the party of the people. With my three sons, all voters, and my brother and his three sons, all voters, and a host of relatives and friends, I have decided to vote for Roosevelt and Fairbanks."

"RED LIGHT" PAT.
DANGER SIGNAL TO DEMOCRATS.
(BY DIRECT WIRE TO THE TIMES.)
NEW YORK, Aug. 21.—(Exclusive Dispatch.) It is now nearly six weeks since the Democrats adjourned at St. Louis. Startling, indeed, to the Democratic managers is the fact that as yet not a single district ratification meeting has been held in New York, only a half-hearted affair by Tammany Hall proper, two weeks ago. Murphy has caused it to be heralded abroad that Tammany Hall, as far as can be learned, is prepared to sacrifice Parker rather than to assist Trust Party McCarren into power where he was a deadly foe against the

Bohling Parker stands Dave Hill, the same old Dave; with his same old rule-or-run policy, and Parker dare not throw McCarren over. Strange to say, this immaculate judge, who electrified the Times and the World with his alleged spontaneous outburst of heroism over the gold standard, clings fondly to his personal choice for chairman of the Democratic State Executive Committee.

T. TAGGART TURNED DOWN.
There is no question that shrewd Tom Taggart has grasped the situation and urged the elimination of McCarren for the time being, if his party hopes to carry New York State. But his advice has been unheeded. Murphy announces war to a flash. McCarren answers by carrying on the bitterest war ever known in Brooklyn to capture the primaries August 29 and throw the Kings county delegation to Hill. With this delegation and the up-State Democracy solidly joined, Hill would be master of the State convention and dictate the nominees for Governor and other State offices.

Meanwhile Parker, who with Pat McCarren, the man who dares make no reply to Murphy's statement that if he got his deers he would be a

THE PRESIDENT RECEIVES A BOER GENERAL.
(BY THE ASSOCIATED PRESS-P.M.)
OSTER BAY (N. Y.) Aug. 21.—The President passed the day very quietly at Sagamore Hill with the members of his family. Among the guests were Gen. G. R. Smyth, who distinguished himself as a Boer officer in the war with Great Britain.

AMERICAN PROPOSITION.
ST. PETERSBURG, Aug. 21.—(By Atlantic Cable.) The United States government has again formally proposed to the Russian government the opening of negotiations for the unrestricted recognition of American passports. In accordance with the law of the empire, only foreign consuls may be appointed in Russia, and the Russian government has refused to enter Russia, but quite a liberal policy has been pursued in making exceptions to the rule when the legitimate reasons therefor are given.

The exceptions, however, are seldom made in the cases of Russian Jews who have been naturalized abroad. The prohibition is not against the United States alone, but extends to the Jews of every country.

The United States government on several occasions, especially when Gen. G. H. B. was Secretary of State, sought to open negotiations regarding this question, but the Russian government always declined to begin such negotiations, on the ground that the question involved the readjustment of the internal policy of the empire toward the Jews.

The basis of this proposition is the joint resolution of the United States Congress passed last April, which lends it additional weight as being the expression of the united wish of the representatives of the American people. Both verbally and by note the subject has been presented to Foreign Minister Lamsdort by Ambassador McCormick.

While under ordinary circumstances it is not probable that Russia would even yield to the extent of discussing a question affecting the internal policy of the empire, and while a compliance with the American wish would probably entail a change in Russian laws, the more liberal policy recently manifested toward the Jews of Russia seems to create at least room for hope that Ambassador McCormick may now succeed where his predecessors failed.

It is understood that while the earnest wish of the United States government in this matter has been made quite plain to Russia, the American note is couched in such terms as to render a refusal on the part of Russia in any sense a rebuff.

WAR NEWS AFTER MIDNIGHT.

MUKDEN, Aug. 21.—(By Atlantic Cable.) The belief is increasing here that the Japanese do not intend to make a direct attack on Gen. Kouroupatkin's position. Liao Yang. The movements of the Japanese and other information indicate that they will try rather to force an engagement in the vicinity of Mukden. The rains have not damaged the railway, but have destroyed a number of bridges.

A small fight occurred August 19 on the Motien Pass road, seven miles east of Mukden, but its results were unimportant.

As the rains have rendered the lower grounds impassable, the main Japanese attack has failed back to the hills.

INTERVENTION AT SHANGHAI.
(BY THE ASSOCIATED PRESS-P.M.)
LONDON, Aug. 22.—The intervention of the American squadron at Shanghai in the Japanese operations against the Russian cruiser Askold created considerable surprise in official and diplomatic circles here. The Japanese Legation was at first inclined to believe that the United States had sent a torpedo-boat destroyer. Chaney steamed into a position between the Japanese torpedo boat and the Russian cruiser was a "whispered tale" at one of the clearest pieces of strategy seen in political maneuvering in recent years, the Nebraska has humbled the Parkerite. He is, it was learned last night, to be invited to make several campaign speeches in this city and State, under the auspices of the National Convention. The invitation probably will not be extended until after the State convention.

Chairman Taggart's invitation of the Nebraska to come to New York is likely to provoke a storm of protest among the Wall street Democrats backing Parker, but Taggart, who is an admirer of Bryan, will go ahead, regardless of Wall street, and justify his conduct by the need of the hour.

The sudden revival of radicalism and the successful invasion of the East by Tom Watson of Georgia, whose speech at Cooper Union has set things blazing, is a controlling reason for bringing Bryan to the fore once more. The Democratic leaders have learned that Watson's success at the Cooper Union has inspired the radicals and that the latter can get more votes for Watson this year than any Populist candidate for the Presidency has ever received.

The cordiality of the welcome given to the Georgian, Thursday night, has prompted the local radicals to invite both Watson and Clarence Darrow, the Chicago lawyer and manager of the Hearst boom in Illinois, to New York, to plan the Democratic campaign in Albany, Troy, Utica, Syracuse, Rochester and Buffalo. The radicals, who include experienced campaigners like Melvin G. Fellner and City Judge Seaton, and Watson and Darrow, will be able to stir up things so that the Populist ticket in this State will receive 30,000 votes. This, of course, will be a serious blow to the Democratic ticket, as the Populists would draw all most wholly from the Democrats.

The sudden revival of radicalism and the successful invasion of the East by Tom Watson of Georgia, whose speech at Cooper Union has set things blazing, is a controlling reason for bringing Bryan to the fore once more. The Democratic leaders have learned that Watson's success at the Cooper Union has inspired the radicals and that the latter can get more votes for Watson this year than any Populist candidate for the Presidency has ever received.

The cordiality of the welcome given to the Georgian, Thursday night, has prompted the local radicals to invite both Watson and Clarence Darrow, the Chicago lawyer and manager of the Hearst boom in Illinois, to New York, to plan the Democratic campaign in Albany, Troy, Utica, Syracuse, Rochester and Buffalo. The radicals, who include experienced campaigners like Melvin G. Fellner and City Judge Seaton, and Watson and Darrow, will be able to stir up things so that the Populist ticket in this State will receive 30,000 votes. This, of course, will be a serious blow to the Democratic ticket, as the Populists would draw all most wholly from the Democrats.

THE PRESIDENT RECEIVES A BOER GENERAL.
(BY THE ASSOCIATED PRESS-P.M.)
OSTER BAY (N. Y.) Aug. 21.—The President passed the day very quietly at Sagamore Hill with the members of his family. Among the guests were Gen. G. R. Smyth, who distinguished himself as a Boer officer in the war with Great Britain.

AMERICAN PROPOSITION.
ST. PETERSBURG, Aug. 21.—(By Atlantic Cable.) The United States government has again formally proposed to the Russian government the opening of negotiations for the unrestricted recognition of American passports. In accordance with the law of the empire, only foreign consuls may be appointed in Russia, and the Russian government has refused to enter Russia, but quite a liberal policy has been pursued in making exceptions to the rule when the legitimate reasons therefor are given.

The exceptions, however, are seldom made in the cases of Russian Jews who have been naturalized abroad. The prohibition is not against the United States alone, but extends to the Jews of every country.

The United States government on

LAST HONORS TO EDUCATOR.

Masonic Rites for the Late G. W. Simonton.

Large Concourse of Friends at Evergreen.

An Interesting Life Story. Varied Experiences.

The final seal upon the earthly career of George W. Simonton was set yesterday with the funeral services conducted by Holbeck Lodge, No. 319, F. and A. M., in which Mr. Simonton was an officer, holding the chaplainship at the time of his death.

There was no sermon, and the only feature of the brief exercises was the reading of a sketch of the deceased's life. Flowers—It seemed as if some big greenhouse had its entire profusion in honor of this venerable man's passing, for the blossoms were strewn thick.

Ordinarily people don't keep old anagnath teeth in their lungs, but that was the unusual experience of Mrs. Alice C. McGhee, living at No. 1029 Georgia street, who for the past eight months has had a large piece of decayed molar in her right lung, a foot from where it originally was set in her mouth.

Residents of her neighborhood for a block in every direction from her house have for several months pitied the poor woman whose incessant coughing has startled them night and day by its sharpness and its never-ending sound. Everyone who has heard that cough thought it was a sign of a very serious illness, and all the hopelessly misty that comes to those whose lungs are wearing away. No one guessed the cause of that hacking cough, but yesterday morning, to her unexpected joy, Mrs. McGhee learned it herself, when after four violent fits of coughing which almost strangled her, she coughed up a piece of a molar tooth half an inch long.

Over eight months ago she had some teeth extracted and came out of the surgery with a violent fit of coughing. She knew something was wrong, but she thought it was a cold or a throat or lung, but supposed it was the blood from her gums. What followed was a head cold, four months of violent coughing night and day. She visited one doctor for several months and he said she had a molar in her lungs, but nothing would give her relief.

about the bier and through the rooms. A very large concourse of friends and relatives was present, most of whom followed the remains to their final resting place, amid the lights and shadows of beautiful Evergreen cemetery.

More than eighty years ago Mr. Simonton was born on a farm in Maine. He was a typical farmer's son, and here the better part of his early life was spent. When it was years of age he left the public schools and went to a private institution, where he studied Latin, Greek, French and higher mathematics. He then attended the public schools, was rated a high scholar, and then in an academy, and when 22 years of age the scholarship youth became principal of his school.

His California career dates from the year 1859, when he came to Green Valley, in Bolson county, for his health. He at once took up educational work, and in 1863 was elected County Superintendent of the Vallejo schools, and then held for three consecutive two-year terms. In September of '86 he took charge of the Vallejo schools, and then followed a period of varied business industry, finally concluding as a governmental appointment at the State Fair and navy yard. This position he held until 1891, when Cleveland turned him out, with the rest of the Republican "rascals," as Mr. Simonton often said in laughing mood.

Then in coming to Los Angeles, and it is perhaps this town that gave him heart after all, for here all the declining years of his life were spent. His

TRANSFERS TWIXT LINES.

Traction and Pacific Electric Street Car Tickets are Interchangeable.

Next Thursday the Pacific Electric Railway—all cars on the Main street line—will make transfers to the lines of the Interurban (Traction) Company.

Likewise, the Interurban cars will all have transfer privileges to the Pacific Electric lines.

These changes are a problem of this city will be greatly appreciated. The question has been the subject of many varied reform agitators for years; volumes of hot oratory have been sent to mid-heaven and franchises have been held up for days on this same transfer question.

The railway managers, who refused to be driven when the fight was on, quietly got their heads together during the past week and mapped out the new schedule. At the same time they decided to cut off all transfers with the Los Angeles Railway. These moves will bring the two transferring systems virtually under one control in name as well as in fact.

The effect is of widespread and of general interest to every part of the community. The man living in Highland Park or Garanza can now ride for a single fare to University, Westlake Park, Boyle Heights or Hollywood Park. In the same manner the dweller along the Interurban line will find almost any other part of this big city accessible for one nickel.

No comment is made by Managers Schindler, McLennan or McMillan, except that they aver the move has been under contemplation for some time, and is merely a solidifying step of the Huntington interests.

TORTURE OF HOT BULLET.

Wounded Man's Bitter Taste of the Desert.

Fellow Fell Into Hands of a Drunken Surgeon.

For Three Days Endured the Keenest Suffering.

With the ball of a .38-caliber revolver lodged in his right shoulder blade, Wilfred Blodgett, a young man of 23, while being conveyed over the hot sands of the Mojave Desert. He now lies at the County Hospital, having been brought to Los Angeles on a Santa Fe train Saturday night.

Blodgett and a young companion, named J. C. Chalderson, were working on a ditch of the Kern River Power Company, about thirty miles from California. Last Thursday during the noon day heat a party of the laborers went down to the river to swim, and as they were descending a steep hill, Chalderson passed a revolver to one of the party. Somebody slipped and the revolver was discharged, the ball plowing into Blodgett's shoulder.

While the wound was not serious and was caused accidentally, the young man had a most unfortunate time. A forty-mile drive was necessary to get him to the nearest town, and there he was placed in the hands of a drunken surgeon, who tried to probe for the bullet, was unable to find it, and finally gave it up. For one night he slept in a wagon driven by a drunken driver, and the next morning he was taken to the County Hospital, where he has been suffering ever since.

He is resting easily in the County Hospital, and as the wound has healed, it is probable that the ball will not be taken out. Blodgett says he is willing that it should be left in, but is afraid that though it is left in, it will cause him to suffer whenever a thunderstorm comes along. He now knows, he says, what it is to be a soldier.

In the intense heat and swirling dust of the desert, he never flinched nor complained. He is a sturdy young man of 20 years.

Somebody slipped and the revolver was discharged, the ball plowing into Blodgett's shoulder.

While the wound was not serious and was caused accidentally, the young man had a most unfortunate time. A forty-mile drive was necessary to get him to the nearest town, and there he was placed in the hands of a drunken surgeon, who tried to probe for the bullet, was unable to find it, and finally gave it up. For one night he slept in a wagon driven by a drunken driver, and the next morning he was taken to the County Hospital, where he has been suffering ever since.

He is resting easily in the County Hospital, and as the wound has healed, it is probable that the ball will not be taken out. Blodgett says he is willing that it should be left in, but is afraid that though it is left in, it will cause him to suffer whenever a thunderstorm comes along. He now knows, he says, what it is to be a soldier.

In the intense heat and swirling dust of the desert, he never flinched nor complained. He is a sturdy young man of 20 years.

With the ball of a .38-caliber revolver lodged in his right shoulder blade, Wilfred Blodgett, a young man of 23, while being conveyed over the hot sands of the Mojave Desert. He now lies at the County Hospital, having been brought to Los Angeles on a Santa Fe train Saturday night.

Blodgett and a young companion, named J. C. Chalderson, were working on a ditch of the Kern River Power Company, about thirty miles from California. Last Thursday during the noon day heat a party of the laborers went down to the river to swim, and as they were descending a steep hill, Chalderson passed a revolver to one of the party. Somebody slipped and the revolver was discharged, the ball plowing into Blodgett's shoulder.

While the wound was not serious and was caused accidentally, the young man had a most unfortunate time. A forty-mile drive was necessary to get him to the nearest town, and there he was placed in the hands of a drunken surgeon, who tried to probe for the bullet, was unable to find it, and finally gave it up. For one night he slept in a wagon driven by a drunken driver, and the next morning he was taken to the County Hospital, where he has been suffering ever since.

He is resting easily in the County Hospital, and as the wound has healed, it is probable that the ball will not be taken out. Blodgett says he is willing that it should be left in, but is afraid that though it is left in, it will cause him to suffer whenever a thunderstorm comes along. He now knows, he says, what it is to be a soldier.

In the intense heat and swirling dust of the desert, he never flinched nor complained. He is a sturdy young man of 20 years.

MONDAY, AUGUST 22, 1904.

TO IMPROVE THE PRISONS.

Legislative Committee's Important Work.

Striving to Better Things for the Deceiving.

Big Penitentiary Needed for Southern California.

At the coming session of the California Legislature more attention will be given to prison and prison reform than during any previous session of the law-making body. It is probable that instead of a repetition of the publication of prison statistics, followed by no action, there will be a radical change in the manner in which the affairs of the penitentiaries are administered. From the beginning the Legislature will know what is needed and will not have to depend upon reports of its standing committee. Which reports are made too late in the session to be of service.

One of the last resolutions passed by the Assembly of 1903 was the appointment of a hold-over Prison Committee to report to the Assembly of 1904, after investigation, what changes are necessary in the construction and arrangements of buildings and in the system of managing State prisons, including in particular their system of keeping accounts, methods of punishment, segregation of prisoners, and all matters pertaining to them, view of making them fully up to the best standards of such institutions in the United States.

Frank C. McConney of San Bernardino was made chairman of the committee. He is assisted by O. D. Dunbar of Santa Rosa, the other members. The committee is authorized to employ a secretary, and to hold public hearings on all matters pertaining to the committee. The committee has just been organized by the Assembly. District Attorney Dunbar, and the committee have been organized. The committee has just been organized by the Assembly. District Attorney Dunbar, and the committee have been organized. The committee has just been organized by the Assembly. District Attorney Dunbar, and the committee have been organized.

WHAT HAS BEEN DONE. The committee organized immediately after the adjournment of the last session. J. F. Carrere was appointed secretary and directed to secure reports from all prison authorities in the United States and Europe, together with special publications as were available in the way of improvement of penal institutions. The committee has been made to follow the committee and the committee has been made to follow the committee and the committee has been made to follow the committee.

THE MARK OF GOOD CLOTHES

...BOOKS... For You, Boys

There's lots of them here. Tales of adventure, camp life, travel, hunting and history. Stories by all the best authors for boys. You can belong and stay a member if you trade here. Every purchaser in our Boys' Department gets a card entitling him to come as often as he wishes and get another book. Call and see the books and find out all about our American Boys' Library.

Harris & Frank LONDON CLOTHING CO. 177 TO 185 NORTH SPRING STREET

havior in prison seem to be means of reform for vice already developed. Segregation will prevent its spread to some extent, reward and punishment will cure it in some cases. "No definite course of action has been determined upon as to life-terms. Considerable correspondence has been had over this question. It is hard to handle. Life sentence is for serious crimes only. Yet the individual is frequently a clean character actuated under some motive of hate or revenge, with no mixture of the instinct for plunder. It is a subject to be approached carefully. Yet there seems some point to the plea made for this class that a man without hope had better be dead. The pardoning power of the Governor is, of course, theoretically open to all prisoners. But no executive cares to take the responsibility for overturning the whole criminal practice of the State by promiscuous jail deliveries. If the people wish prisoners released or released they should through their Legislatures so provide. Yet some relief may be worked out."

Are there any fundamental radical changes in methods which are sufficiently well understood for your committee to advocate? "There is no possible doubt upon one subject. That is that first offenders should be separated from recidivists. That is a plain, simple duty that none can gainsay. The youthful offender who has been guilty of but one act of crime should not be allowed to communicate in any way whatever while in jail or prison with an old offender. This is the one central principle upon which we can work out toward reform in detail and feel we are on safe ground. "So you do not think the building of a million-dollar penitentiary in Southern California feasible? "It has been worked on the Ways and Means Committee enough and I have struggled with the Assessor and Tax Collector myself enough to have a wholesome respect for moderation in the expenditure of public money. If the Los Angeles delegation desires to tackle it they have a county big enough to hold such a building and the delegation is not slow at getting things. As far as I am concerned, I found that the \$115,000 I got last session for Highlands is a big enough job for me. A million is nearly the Los Angeles mark, that's about a hundred thousand per Assemblyman. It's just about the pace I was going."

STRICKEN MOTHER. Mrs. Perrin Comes from Riverside for the Body of Her Son. Sad will be the story which Rodella Hewitt of Hollywood will tell at the inquest this morning over the body of John A. Perrin of Riverside, who shot himself with a revolver Saturday afternoon because she would not love him, as fully narrated in Sunday's Times.

Are You Looking for a Home? Or for any kind of real estate, from a cattle ranch or city of whatever you have cash to pay, want to trade eastern property or some kind of business, we will save money, time and trouble by procuring a copy of "The Times Real Estate" which is a complete and up-to-date list of all real estate for sale in California. A great number of offers of bargains in California property, with an index variety, from which every investor or home-seeker can select. The inquest will be held at Breese House, Riverside, at 10 o'clock this morning.

New Waistings

A wealth of choice wool stuffs

First in the field with Fall goods—and enough of them to make an exhibit worth going out of your way to see. Most of them our own direct importation—the patterns will be seen nowhere else, and as the choicest of them are in short lengths you're assured of exclusiveness. The window displays will give you some idea of their beauty, but you must view the interior displays to appreciate the varieties and values.

A few price hints: At 85c—New wool waistings in rich Persian colorings, coruscating designs; blues, greens, reds, gold, lavender, etc. Fancy brocades in floral and spot designs at same price. At 75c—New wool waistings in embroidered stripe effects, all the desirable colors in various combinations. At 25c to 50c—New Scotch flannels for waists, shirts, pajamas, night shirts, children's dresses, etc.; solid colors and pretty striped and checked effects.

Mohair Suitings at half

Fall fabrics clamoring for display space—and they must have it, even if a quick clearance of Summer stuffs DOES entail loss.

Just two items, as examples: \$1.25 to \$1.75 mohair suitings 75c Novelty mixtures, stripes and figures, in the shades and weights wanted for late Summer and early Fall wear. Ideal stuffs for traveling suits. 44 to 50-inch widths. \$1.25 to \$1.75 values to close at 75c yard. 50c and 75c mohairs 35c

38 and 40-inch mohairs in light and dark mixes, striped and checked effects, excellent 50c and 75c values, free to go now at 35c.

New Draperies

Many new stuffs, but deserving of special attention are the imported English crotonettes. Extremely rich colorings, and they're washable; same on both sides.

42-inch width, 35c yard. 45-inch width, 50c yard.

Mail orders carefully filled. Correspondence solicited.

Coulter Dry Goods Co.

\$1.50 Silks \$1.00

One of the most popular weaves, too

Four lots of popular silks underpriced for today only. Chief among them is 45-inch gauze Taffeta at \$1.00 a yard—a thin, sheer, all-silk fabric designed especially for evening gowns. Every wanted shade—greys, lavender, pink, canary, reeds, light blue, white and cream. Dollar a yard today only; formerly \$1.50.

\$1.50 Pongees \$1.25—Natural Pongees for coats, suits, etc., the heavy all-silk goods in full 30" inch width. Regularly \$1.50; today only, \$1.25.

90c Taffetas 75c Rich, lustrous black taffetas, splendid fabrics for all-around service. Strong value at its regular selling price of 90c; buyable today only at 75c a yard.

85c Taffetas 75c Colors! taffetas for drop skirts and linings. Our best 85c values of other days; on sale today only at 75c a yard.

"Old Bleach" Linens

"Old Bleach"—bleached on the grass, in the good old-fashioned way. Chemically bleached linens won't wear half as long.

Old Bleach linens cost a trifle more at the start, but they're far cheaper in the long run. If buying linens for drawn work, or for embroidery, no other sort should be considered. No satisfaction in putting a lot of needle-work in a dress, or waist, and then have the fabric go to pieces in a short time.

Old Bleach linens come in 18, 36, 45, 54, 72 and 90-inch widths. Prices 50c, 75c, 85c, \$1, \$1.25, \$1.50, \$1.75, \$2, \$2.25 and \$2.50 a yard.

Ostermoor Mattresses

The Ostermoor is the only REAL felt mattress on the market. Of all the "just-as-goods" not one of them comes near enough to the Ostermoor in elasticity, cleanliness and durability to be worthy of consideration.

Widths 2 ft. 6 to 4 ft. 6. Prices \$5.35 to \$15. Sold nowhere else in Los Angeles.

Los Angeles agents for "Redfern" and "Fasso" Corsets.

The same to be published for ten days in the Los Angeles Daily Times.

I hereby certify that the foregoing was adopted by the Council of the City of Los Angeles at its meeting of August 10, 1916.

H. J. Smith

Approved this 12th day of August,

Notice of Public Work.
Public notice is hereby given that on the 18th day of July, 1914, the Council of the City of Los Angeles in meeting on said day, adopted the following resolution, numbered 1741, to-wit: That we have the following work done:
Section 1. That it is the intent of the Council of the City of Los Angeles to close up certain alleys, to-wit: close, certain portions of
COLUMBIA AVENUE
a public street of the City of Los Angeles between Silver Street and Arroyo Street as described as follows, to-wit:
Beginning at a point in the middle of Columbia Avenue distant 211 1/2 feet from the intersection of Columbia Avenue and lot 4, block J of Colina Park

recorded in Book I, at page 18, of the
Colombian Records of Los Angeles
thence southerly and westerly to a
west and having a radius of 50 feet
of 23.26 feet to a point which is 50
feet southerly (measured at the
first said westerly line) from the
point of beginning and thence South 85°
West 41° 30' 00" 00" miles
along with the southeasterly line of
Block J and its southwesterly line
271.8 feet to a point on said
curve concave to the north and the
diameter of 53 feet a distance of 50
feet from the southeasterly line of
Block J, which is the point of begin-
ning from the most southerly corner
let I, said course of South 85° 00' 00"
West 41° 30' 00" 00" miles to the
point tangent to said last mentioned
the point of beginning of the
southeasterly along said southeasterly
line of Block J and said southeasterly

Also, beginning at the intersection of the easterly line of Columbia avenue and the southerly line of Silver street, there is a line along said easterly line of Columbia avenue to the northwesterly line of Third street, thence northwesterly along the same prolongation of said northerly line of Third street to a point; thence northerly and parallel to the easterly line of Columbia avenue to a point in the southerly line of Silver street; thence southerly in a street line to the point of beginning.

Also, beginning at the intersection of the easterly line of Columbia avenue and the southerly line of Third street; thence westerly along said easterly line of Columbia avenue to a point; thence northerly to block 8 of Witmer's subdivision of lots 5 and 7, block 28, Hannan's first map recorded in Book 23, at page 10.

aid point is distant 49.39 feet from the angle point in a line of lot 4, thence northeasterly to the point of beginning, the distance of said southerly line of the which is distant 7.50 feet from (measured at right angles) from said point of beginning. The line in a direct line to the point of beginning. Sec. 2. That the exterior boundary of said district of land to be affected by the improvement is to be as follows, to wit: Beginning at the most northeasterly corner of Block 3 of Collins Park, as shown on the plat attached and numbered; thence northeasterly to the most westerly corner of said block; thence southwesterly in a direct line to the southwesterly corner of said block; thence southwesterly to the most southerly corner of said block.

[illegible]

the words of Rev. Simpson in The Times, and said that many persons

had expressed the wish to have written the criticism. That he was the author of the Bible book which Rev. Simpson had used in his effort to prove that Spiritualism is a delusion, was a fact which the First John iv. 1. "Beloved believe not every spirit, but try the spirits whether they are of God" was the foundation for the dispute last night, and after announcing it the speaker said: "It has been stated that the Holy Spirit will not be deceived by any kind of a tune can be played. This is to say that, any kind of a tune will be accepted by the Bible. There are persons who because they are not thoroughly conversant with the Bible, are willing to believe anything that is said, and are misleading, and a thorough knowledge of the Bible will dispel it."

The speaker then composed an amateur can select certain disconnected passages, which may be regarded as many different tunes, but when the master musician comes to every thought, every sentiment, every emotion, sweeps over the composition in one grand, harmonious strain, and the whole from start to finish is one grand harmony. So it is with the Bible. It is not a collection of disconnected and study, which requires the student to place himself in the same relation with the highest intelligence as the uneducated man as he is to the masters who gave to the world this most wonderful, complete and comprehensive book. The speaker then asked a question, will disclose the fact that the Bible, from Genesis to Revelation

teaches the same thing—plays the same
tune.

"Humanity can never and naturally cannot understand the question of life, for life is two-fold—its expression which is described in the external, objective, and subjective; physical and material, and spiritual. Masters always have made this distinction in some form or other, and have been very pronounced throughout the Bible. From beginning to end, while it recognizes the fact of the material, it stresses the supreme importance of the spiritual, that which shall not pass away, but which is forever and ever. It has made manifest, shall the physical, whether it be material though transient, ephemeral, or form, are always material, and hence always liable to everlasting forgetfulness.

"Our text gives us clearly in under standing the fact that the spiritual is of other intelligence called spirit, who are of God; just the same as the physical, who are of man, who are of God, because living in the kingdom of justice, goodness and truth. This does not prove that all man are spiritual, but that all are of God, and the text clearly implies that they are not, and the admonition of the apostle is that we detach ourselves from the world and fellowship only with those spirits which are Godly. Consonant with this text, to which our text refers, the course referred to in the eighth, ninth and nineteenth and twentieth verses. "And when they shall say unto you, See ye here, or there, ye spirits, and unto wisdom that peep

that matter, should not a people see
unto God? for the living to the dead

To the law and to the testimony" they speak not according to this word. It is a false witness, and a liar.

This text, like the first, is clearly a warning from the prophet to the people. The false witness is not the angel, which are not of God, for they do not talk intelligently, but, as stated in the first text, they are sent to the prophet. Do not speak the truth for they have no light in them which can give them the power to give testimony. It seems strange that our Advent brother should claim these angels as the work of an individual called the devil. Nothing could be further from it. They do indubitably tell the truth, and will continue to do so. Reference was made to passages which show that communications came to the prophet from the angels of his first estate. These angels are also called unclean spirits, which Jesus cast out of the men who were his teachers are men who once lived upon the earth. In Revelation twenty-one, chapter eighth, the ninth verse says that the angels of the seven trumpets were the angels of John these things was a man, and one of the prophets that kept the saying of the Word of Life. What John says is true of all. The apostle Paul, in Hebrew 1:1, says that the angels of all creation were made for the service to them that are heirs of salvation. The Bible teaches we should have nothing to do with the angels.

darkness and ignorance, and this

why there was given to Moses by the angel of the Lord that accompaniers—those who are familiar with the ways of the wizards, should be driven out. The fact that there was a law against necromancy is proof of the truth of Spiritualism, for it is acknowledged that these are in communication with spirits of the departed, but that these are unclean or evil spirits, and that which is evil is deceptive and false, which is the very thing Jesus says is a liar and the father of lies, not an individual personality. If we had a law today that could be enforced in driving out all who practice or are in rapport with unclean spirits, both Spiritualism and Christianity

Would Be In Far Better Results.

NEWS AND BUSINESS.

For the Zoo.

Prof. Rabe, in charge of the animals at Eastlake Park, received from Mrs. E. E. Benjamin a letter Tuesday afternoon stating that she had been informed by the present of two fine young badgers. Mrs. Benjamin will send other additions to the Zoo in the near future.

Conductor Injured.

W. M. Rodgers, a conductor of the Los Angeles Railway Company on the University line, fell from his car in front of the Orpheum yesterday afternoon and sustained a number of bruises and cuts about the head and face.

Miller Engagement.

The seat sale at the Mason Opera-house for the Miller engagement will commence at the box office at 9 o'clock this morning. Mr. Miller will be first seen here Wednesday afternoon. His two plays for the week are "Joseph and the Coat of Many Colored Garments" and "Mice and Men."

New Water Mains.

Twelve-inch water pipes will be laid this week from Grand avenue and Washington street, south to Jefferson, and from Jefferson east to Main street, to replace the old pipes which are inadequate to supply this rapidly-growing section of the city.

Tough Negro.

Will Hayes, a burly negro, gave three officers a lively time at the First Street Hotel yesterday afternoon. Hayes was hilariously drunk and so angry that it was necessary to handcuff him. He is considered one of the toughest negroes in Los Angeles.

Teeth Knocked Out.

C. L. Dominguez of No. 414 San Pedro street, this city, at the corner of Broadway and Main street, was struck by an electric car at Ocean Park last evening and badly injured. Several of his teeth were knocked out and he was bruised all over.

Invited to Return.

At the fourth quarterly conference of the Vincent Methodist Church Rev. George A. Hough, the pastor, was invited to return for the new church year. Great progress has been made during the year that is closing. 107 members having been received into the church, and a new building erected.

Rescue Work.

Rev. T. G. Atterbury, editor of the Evangelist and connected with the Co-operative Missionary Union of Chicago, addressed a meeting last evening at the Haven Methodist church. He spoke of the work that is done in rescue missions of Chicago. Dr. Atterbury at the last meeting of the local "Door of Hope" board of trustees was made a member of the organization.

Lucky Dog Is Dead.

J. R. Reed will consider himself lucky if he can locate a man in McAlister, I. T., by the name of H. B. Miller is doing his level best to send Reed money, but every time he fails. Finally becoming disheartened, Miller has appealed to the police to help him. Miller says that Reed is an invalid who has been living with a Los Angeles physician, but he doesn't know the address. If Reed will only speak up he will have money in abundance showered on him.

Belasco Seat Sale.

The ticket sale for the opening of the new Belasco Theater will commence at the box office of the playhouse at 9 o'clock this morning. It is the desire of the management to head off the speculators, and only four seats will be sold to any person who is not personally known to the treasurer or his assistants. Only the regular admission prices will be charged for the premier performance, and the street-corner brokers have evinced a desire to take advantage of this. The choice seats of the first box has been purchased by David Belasco of New York for \$500. This playwright desires the seats for his wife and two daughters. He has been spending the summer in San Francisco.

Two Bruises.

Alfred Cowles and J. C. Shilton, two bruisers, couldn't find amusement enough in trying to smash a waiter's head at Schubert's Park yesterday afternoon, so they started the regular Sunday afternoon rough house on a Pasadena car returning to the city. R. M. Seale of No. 218 Ramona street was pounced upon by the two men, who blackened their victim's eyes and pumpled his face until they were tired. Afterward the two hoodlums used the vilest language in the presence of ladies and disgusted everybody on the car. At First street the men left the car and continued their fight with Seale until Deputy Sheriff Holman put in an appearance and sent them to the Police Station.

Strychnine in Wine.

Detectives are making a thorough investigation in the case of H. Rose, who died at the Receiving Hospital at 2:30 o'clock yesterday morning from the effects of a dose of strychnine in a glass of white wine. There are two conflicting stories about it. On his death bed Rose told E. F. Mori, a Japanese interpreter, that one of the inmates of the house had brought the wine into the room and offered him the glass, which contained the poison, and that the man had intended to kill him. The name of the supposed murderer was not given. On the other hand, Mori and the inmates of the lodging-house at No. 119 North San Pedro street, of which Rose was the proprietor, say that he committed suicide because of a dependency over the death of his father and sister of Fresno. He received this information in letter three weeks ago, and had been drinking heavily up to the time of his death. It is claimed that there was no motive for murder among any of his associates, and that all the facts point to suicide. This is the opinion of the detectives who have been working on the case.

BREVITIES.

The San Francisco office of The Times is located in room 18, Chronicle Building. Telephone 8233.
Investors for sums of \$50 up will do well to read "Desirable Investment" under "Stocks and Bonds."
Finest place to eat: Hotel Rosilyn Cafe, dinner, 50c; to 5 p.m.

tor for "The Times," no prefix or number being necessary.
Dr. Frank Bullard has returned from his vacation.
Dr. Percival returned, 2625 West Pico.

SKELETON WALKS, DOESN'T EAT.

POLICE HAVE CAGED STRANGE HUMAN ENIGMA.

Found Roaming in the River Bottom—Had Not Tasted Food for Several Days—Over Six Feet Tall and Weighs but Seventy Pounds, but Says He Feels Fine.

If P. T. Barnum were alive Ernest Golding would not be locked in the City Jail. He would be in a side-show. A human skeleton has been roaming the streets of the outskirts of the city, fasting for days and weeks at a time, and making the Los Angeles River bed his home. Golding looks like the part, and he filled it.

The last time this freak partook of food could not be determined by Police Sergeant Smith last night when he examined the man. Golding himself does not remember, though he thinks only a few days have elapsed.

Several months ago Golding served a term in jail for a petty offense, and prisoners who watched him say that the man did not taste food in three weeks.

Yesterday afternoon Sgt. McKee stumbled across the human enigma in the river bottom near the pigeon farm, where he had been for several days. He was sent to the Police Station and locked up on suspicion, but when food was offered the apparently half-famished man declined it scornfully.

Standing 6 feet 2 in. in his stocking feet and weighing only about 70 pounds, Golding presents a curiously ghastly appearance. He is able to walk at a talk, but long fasts have apparently affected his mind, for he talks in a rambling way and seems unable to remember things clearly.

Golding insists that he is perfectly well and says the reason he does not eat is because he doesn't want to. "I don't feel hungry a bit," he said last night, in response to Dr. Smith's question, "My stomach feels fine, though I guess it's rather empty. Oh, yes, I had something to eat several days ago, but maybe it was several weeks ago. I can't remember exactly."

Asked if he worked for a living, Golding brightened and said: "Oh, yes, indeed, I worked last in a South Broadway restaurant, washing dishes." "Probably that accounts for your failure to eat," suggested the doctor ironically.

Golding seems to think it's nobody's business whether he eats or not. His case is a puzzle to the police surgeon. It is a foregone conclusion that he cannot live if he continues to refuse nourishment as he seems to be suffering from tuberculosis.

DEATH RECORD.

GERWIG—August 26, 1904, Louise M. G. Gerwig, 44 years old, died at 2 p.m., Tuesday, from the residence of her parents, Mrs. W. C. Gerwig, 1214 North Main street.
